

ERIC PELLY SPORTS EDUCATION FUND

Eric Pelly loved life and lived it to the fullest. Eric was a gifted athlete; he was intense, vibrant and very competitive on the field. As intense as he was on the field, he was equally compassionate in his relationships with family, friends and his faith. Eric is fondly remembered by many for the smile on his face, gleam in his eyes and that contagious laughter that no one can forget. He could light up a room at any moment.

Eric had a passion for life! He was willing to try anything new and in fact master it! Eric put 100% into everything he did. It was equally important to him to see others succeed; he was a great motivator and life coach. His motto was NEVER GIVE UP.

Eric had a great love for sports; the action, competition and excitement was what he lived for. Eric began playing hockey when he was 6years old; he played many sports but always remained active in hockey. In October of 2006 Eric passed away following a concussion he received playing rugby, a sport he was passionate about.

Eric will not be forgotten because his spirit continues to live within us.

In honor of Eric and his passion for sports, the Eric Pelly Sports Education Fund (E.P.S.E.F.) has been established to help protect the lives and health of fellow athletes. We raise funds to educate students, parents and coaches about the seriousness of concussions, how to recognize one, and the necessity of proper management and care. Knowledge is Power! Our goal is to keep athletes healthy and doing what they love while protecting their future.
